## Maysa Mohammed

The Syrian born artist, Maysa studied at the fine Art university in Syria, in 1984. A multi-faceted, vibrant personality, who has several television productions to her credit, started exhibiting her art works only a few years ago. Maysa heralded the television world as a director and an anchor. The stage finds its place in her canvas to narrate the stories of the common man. She brings with her the ethos of human endeavor and the constant search which is not hers alone.
